

DELTA

Platform

SEMANTIC CONTRACTS

Verified

**MULTI
BLOCKCHAIN**

**CRYPTO
ICO&TOKENS**

Supported by Sobolev Institute of mathematics
Siberian Branch Russian Academy of Science

ACTUAL PROBLEMS of CRYPTO CURRENCIES

Number of transaction BTC, ETH < 50/sec
Hi commissions of transactions

1) Scalability

2) Security **PoW: problem 51%, 70% power in China**

3) Confidentiality **All information is open**

4) Smart Contracts **Not verifications, errors**

5) Blockchain **No constructor, no multi-blockchain**

PLATFORM of SEMANTIC CONTRACTS

- 1) New crypto currency DELTA **HardFork Ethereum, on start 1:1**
- 2) Semantic Contracts **Verified, simple, speed**
- 3) Directed Acyclic Graps (DAG) **speed > 1M transactions in second**
- 4) Blockchain constructor **DAG, multi&private blockchains**
- 5) Apps platform **ICO, IoT, tokens, business, games, finance, programs.**

SEMANTIC CONTRACTS

- 1) Delta-programs **on JavaScript, Solidity, Logical**
- 2) Contracts verification **Law and business verification**
- 3) Blockchain constructor **DAG, multi-blockchain, privacy**
- 4) Oracles and probabilistic logic
- 5) Interface **Usability, simple**

FUTURE APPS

- 1) Create ICO, create own Tokens
- 2) Micropays, fintech and IoT Storage, analysis, forecasting
- 3) Create own blockchain structures
- 4) Banks, insurance companies
- 5) Education projects

DELTA VS Bitcoin VS Ethereum

ROAD MAP

DELTA TEAM

Nechesov Andrey

founder and CEO DELTA

Founder over 10 successful startups.
Expert in blockchain and smart contracts domains.
Mathematician, the author of a number of works on semantic programming, crypto-currencies and block technologies.

Sobolev Institute of Mathematics SB RAS

Serbsky Nikita

co-founder and TD DELTA

Expert in: MySQL, MSSQL, Oracle,
distributed databases, data transfer
protocols, Linux / Windows servers.
MicroSoft Professional Certificate.

ADVISERS

Sviridenko Dmitry

General project adviser

Full Doctor Philosophy. Mathematician. One of the founders of the theory of semantic programming. The author of many scientific publications. Expert in economics, finance, banking. Sobolev Institute of Mathematics SB RAS

Vityaev Evgeniy

Math adviser

Full Doctor Philosophy. Mathematician. Expert in the field of probabilistic logic and financial forecasting. Sobolev Institute of Mathematics SB RAS
